

“Dr. Samaha, I want to tell my story in hopes that someone who has had dental problems like mine will be helped. *As you know, I was brought up on well water. To make matters worse, I was never taught proper dental care and only saw a dentist for the second time in my life at age thirteen.* I had six cavities fixed and was told that even at such a young age, I had receding gums.

Due to our family circumstances, I did not get to go back to the dentist for many more years. *My front teeth especially looked rotten at the gumline and had decayed so much that I wouldn't ever smile.*

At the age of twenty-two, I couldn't stand it anymore and went to a dentist who allowed me to set up a payment plan. **By the age of twenty four, and several thousand dollars later, I had all of my teeth “fixed”.** Problem was, the real problems were never fixed. The half-tooth plastic repairs led to lines in my front teeth and my gumline was inflamed and red all the time. My gums kept receding. I stopped smiling for another 5 years.

At age 32, I decided it was time to take real action. I went to see two other dentists and left each one without going back. Then I heard about Dr. Samaha. She was the first person to address my gum disease and stop the problem! I trusted her from the start. We met to discuss options and finally went forward with a complete reconstruction of my entire mouth. **I soon had my new grin...just in time for my wedding day and I have never been able to stop smiling!** My great smile keeps me so motivated that I can't help but take incredible care of my mouth. **Although I spent thousands of dollars to have it done, getting a phenomenal, strong and healthy smile was the best investment I have ever made.**

I can't even imagine going back to the time I felt so hopeless and insecure about my looks because of my dental condition.

Dr. Samaha, you are the first dentist that I have ever met who actually cared about me. **My entire life improved in amazing ways because I became self-confident and for the first time and learned what it was like to have self-esteem... not to mention the BEST SMILE ON THE PLANET!!!**

I hope there are others who can learn from my misguided experiences. **Take action now! Your life will improve beyond anything you can imagine! I totally recommend you to everyone, Dr. Samaha. No one else will EVER touch my smile!”**
