

Fountain of Youth™ for Overall Health

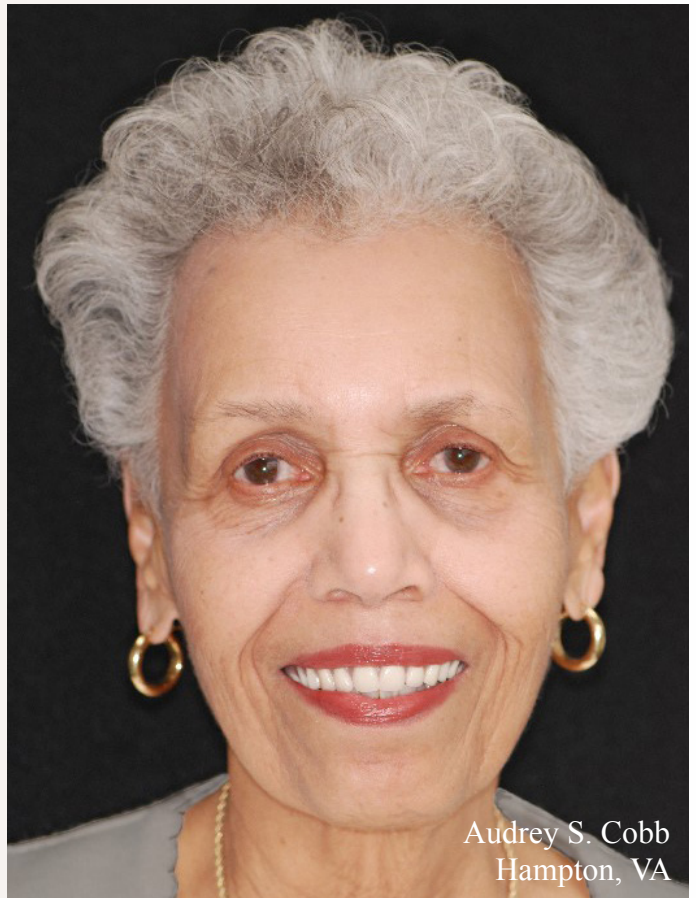

“I lost five of my front teeth at the age of 12, so I have been dealing with dentists since I was a young girl. My teeth weren’t comfortable and looked horrible. I never felt confident, so I hid my smile. I always wanted to smile big, as it is a natural part of who I am. One day I read about Port Warwick Dental Arts and the custom-designed dentures by Dr. Lisa Marie Samaha. Looking at the pictures of some of her patients and reading their stories compelled me to schedule a consultation.

I was nervous on my way to my first visit because of my history with dentists, and wondered if I had made the right decision. As soon as I arrived I was put at ease by her delightful team, who graciously reached out to me, while also supporting one another. Then I met Dr. Samaha, a very loving and caring person. I knew at that moment that God had pointed me in the right direction.

By this time in my life I had several health issues. She showed great concern not only for my dental health, but for my overall health. I have been a patient of Dr. Samaha’s for over a year. She put a lot of study and effort into developing the perfect plan. Even though my case was exceptionally difficult and complex, she was personally able to orchestrate and accomplish every step, just for me. Dr. Samaha did it all from start to finish!

For the first time in my life, I have healthy gums, better chewing capabilities and above all, a beautiful, comfortable smile. The transformation, as you can see, was remarkable. I thank Dr. Samaha and her team, especially her talented lab assistant, Leah, for their love, support and expertise.”
