

Port Warwick Dental Arts

Jan & David LEDBETTER

"Seeing Dr. Lisa Marie Samaha's artistry and passionate dedication to perfection when she was a student in my watercolor painting class convinced me that I had to have her as my dentist. In the years that I've been her patient I've seen so many examples of her skill, her precision, her ability to combine balance and beauty with the most advanced levels of care. As an artist myself I expect a lot, and my expectations have been exceeded year after year. I cherish my relationship with her and every member of her team."

-Jan Ledbetter, Kingsmill, Williamsburg, VA

"I've always dreaded going to the dentist but I knew my experience would be different with Dr. Samaha when she took the time to explain all the options for the major dental work that I needed. *My confidence grew when I saw the state-of-the-art technology throughout her office and learned that she is a nationally recognized lecturer on advanced dental techniques.* She knew the best way to get my extensive treatment done a lot faster and more comfortably than I expected, and the results were just great. Dr. Samaha and her team are friendly, enthusiastic and obviously dedicated to giving their patients the best care with the most comfort. She did a wonderful job for me! **The positive results were, without question, totally worthwhile!**"

-Dave Ledbetter, Kingsmill, Williamsburg, VA
