

## Michele ARSENAULT

"I was so embarrassed by the condition of my teeth. I couldn't believe that I had let them go for so long, but my financial situation got in the way of regular dental care for many years. *My teeth decayed and crumbled, and one by one I had them removed when the pain got so bad.* Dr. Samaha put me at ease and made me feel comfortable in the first moments of our first visit. I am overjoyed with the results."
